

Adding Publications

The Publications section of the Professional Profile allows you to store information about your publications. Many of the grant makers using proposalCENTRAL may collect information about your publications in their applications and post-award reports. If they use the specially designated Publications feature, the information you enter in the Publications section of the Professional Profile can easily be added to any applications and post-award reports.

This tutorial includes the following information:

- Adding Publications to Your Professional Profile..... 1
- Adding Publications From Your Professional Profile to an Application 3
- Adding Publications From Your Professional Profile to a Web Form Deliverable 7

Adding Publications to Your Professional Profile

To add publications to your Professional Profile:

- Go to proposalCENTRAL (<https://proposalcentral.altum.com>) and login under Applicant Login.

Grant Maker	Programs (Click for Guidelines)	LOI Deadline	Proposal Deadline	Contact Information	FAQ
A Collaborative Pediatric Cancer Research Awards Program	Fellowship in Pediatric Cancer Research: Bear Necessities and Rally Foundation	10/9/2014 5:00:00 PM	1/8/2015 5:00:00 PM	Carlene Wadsworth	

- Click the green Professional Profile link and then the [Publications](#) link in the gray menu on the left. The first time you access the Publications section, it will be blank as you have not added any entries yet. (See the following page for graphic.)

The screenshot shows the 'Professional Profile' page in the proposalCENTRAL system. The user is logged in as McCoy, Jack. The page has a navigation menu on the left with the following items: 1) Contact Information, 2) Degrees, 3) Research Interests, 4) Personal Data for Applications, 5) Biosketch, 6) Other Support, 7) **Publications** (highlighted with a red arrow), 8) Enable other users to access your profile, and 9) Account Information. The main content area includes a header with the user's name and email, and a table with columns for Action, Status, PMID, Title, and Journal. An 'Add' button is located above the table. A red arrow points to the 'Add' button.

3. To add a publication entry, click the **Add** button at the top of the table. Clicking the **Add** button will show the publication fields for you to complete. There are three ways that you can enter the publication information:
 - a. Enter the PubMed Identifier (PMID) and click the **Submit** button. This will populate most of the data fields for you. If you enter a PMID that does not match a record, you'll see an error notice. You will still need to upload the file.
 - b. Enter the PubMed Central Identifier (PMCID) and click the **Submit** button. This will populate most of the data fields for you. If you enter a PMCID that does not match a record, you'll see an error notice. You will still need to upload the file.
 - c. Manually enter the data fields and upload the file.

Regardless of which method you choose to populate the data, make sure to click the **Save** button. This will retain your changes. When you are done with the entry you can click the **Save and Close** button.

INSTRUCTIONS: Enter the requested information below for each publication. Click 'Save' to save your changes. When you are done, click 'Save and Close'.

Save **Save and Close**

Add

Status:

PubMed Identifier (PMID): **Submit**

PubMed Central Identifier (PMCID): **Submit**

Digital Object Identifier (DOI):

URL:

Authors:

Title:

Journal:

Citation:

Volume:

Issue:

Pages:

Year:

File: No file chosen

4. The publication you entered will now appear in the table. If you have additional publications to include, click the **Add** button again. Repeat the steps until you've included all of your publications. If you need to edit an entry, click the corresponding [Edit](#) link for the publication. This will show the fields below the table (as in the step above). You can make changes and click the **Save and Close** button. To delete an entry from your profile, click the corresponding [Del](#) link for the publication and confirm the deletion when prompted.

Name: McCoy, Jack **Email:** jmcocoy@example.com **Edit Account Information**

<<Previous **Next>>** **Cancel**

Some grant makers in proposalCENTRAL request publication information in their progress reporting. Not all grant makers may request this information, or if requested, use this particular form. Check the instructions from the grant maker for more information.

To add publications, click the Add button. To edit an entry, click the Edit link. To delete an entry click the Del link.

Add

Action	Status	PMID	Title	Journal

Adding Publications From Your Professional Profile to an Application

Grant makers require different information in their applications. Therefore, your application may not collect information on publications. Additionally, even if the grant maker you are applying to is collecting publications, they are a variety of methods they may use to collect the information. The following section **ONLY** refers to the collection of publication information using the special Publications feature in the application.

The Publications feature is a section accessed in the application menu and the page includes an [Add New Entry](#) link that opens a window with a drop-down menu displaying the publication entries from the applicant's Professional Profile.

Proposals Sections
 Click name below to go to that section.

Publications
 Close Window
INSTRUCTIONS: Select the appropriate Publications. Click 'Save' to save your changes. When you are done, click 'Save' and then 'Close Window'.
 Select Publication: Select Publication from the Applicant's Professional Profile
 The Publication information showing below as read-only is for the above selected Publication as entered in the applicant's Professional Profile. To update the information, click the Close Window link without saving. This will return you to the main application page where you can click the Edit Professional Profile button allowing you to edit the Publication in the applicant's Professional Profile. When you return to the application you can then add the updated Publication entry.

If your application is not collecting publications in the manner described above, then the following steps do not apply to your application.

Use the following steps to add publication entries using the Publications functionality shown above.

Step 1

Click the [Add New Entry](#) link (shown above).

Step 2

A pop-up window or new browser tab will show with instructions and a drop-down menu. The drop-down menu will include all of the publications included in the applicant's Professional Profile, along with an option of "N/A".

Publications
 Close Window
INSTRUCTIONS: Select the appropriate Publications. Click 'Save' to save your changes. When you are done, click 'Save' and then 'Close Window'.
 Select Publication: Select Publication from the Applicant's Professional Profile
 Select Publication from the Applicant's Professional Profile
 The Publication information showing below as read-only is for the above selected Publication as entered in the applicant's Professional Profile. To update the information, click the Close Window link without saving. This will return you to the main application page where you can click the Edit Professional Profile button allowing you to edit the Publication in the applicant's Professional Profile. When you return to the application you can then add the updated Publication entry.

If all necessary publications are showing and/or you don't have any publications to report, [click here to skip to step #3.](#)

If you need to add any publications, you need to do this in the applicant's Professional Profile. To update the publications in the applicant's profile:

1. Click the [Close Window](#) link at the top without saving anything.

- If you are the applicant, you'll see an **Edit Professional Profile** button. If you are NOT the applicant, but you have access to the applicant's Professional Profile, you'll also see the **Edit Professional Profile** button. If you don't have access to the **Edit Professional Profile** button, you will need to contact the applicant and ask them to provide you access to their Professional Profile ("Enable other users to access your profile" section of profile).

If you have access to the **Edit Professional Profile** button, click it.

Adding Publications From Your Professional Profile to a Web Form Deliverable

If an application is funded, the grant maker may choose to manage the life of the grant in proposalCENTRAL (i.e. post-award management). Part of post-award management is the collection of materials known as "Deliverables". A grant maker has two options as to how they can collect deliverables from you, as either a file or text in the interface. Your funder may use only one method or both. If they want the material as a file, you'll see an [Upload](#) link listed for the deliverable (1). If they want you to complete an on-line form (aka web form), you'll see either a: 2a) [Start](#) link, for a web form you haven't started yet; or 2b) [Edit](#) link, for a web form you already started.

Award Deliverables
